

FLORIDA KEYS ELECTRIC COOPERATIVE ASSOCIATION, INC.
Tavernier, FL

REQUEST FOR METER TEST

A request is made to test the accuracy of the meter on Account No. _____

in the name of _____

address _____

It is understood that if upon test the average error in the meter does not exceed 2% at 10% load and at full load on the meter, a charge of thirty dollars (\$30.00) for a single phase meter and forty dollars (\$40.00) for all three phase meters will be made by the Cooperative to cover the cost of such test. If an average error of more than 2% is found in the meter upon such test, no charge will be made for testing the meter.

If the meter is found to be slow, no additional billing will be made. If the meter is found to be fast, appropriate credit adjustment will be made of the billing for the six months prior to the meter test.

Do not delay payments pending results of this meter test. Proper adjustments will be made if necessary.
